The pandemic has significantly changed the way we interact and has strongly encouraged online communication, giving us the opportunity to expand our knowledge and networks.

The World Congress on Snow and Mountain Tourism has also adapted to this new trend and, for the first time in the event's history, will offer the possibility of **streaming all the conferences**, because distance should not be an obstacle to accessing information.

Andorra is thus connecting to the world and doing so to make the debates on **the future of snow and mountain tourism** accessible to all. Speeches, round tables and conferences in which experts and institutional representatives from all over the world will share their knowledge and unique experiences in the **snow and mountain tourism sector on the world stage**.
