The Casa Cristo Ethnographic Museum offers us the opportunity to relive the way of life of the humble walk of the late 15th century, a live history lesson. You will discover first-hand what life was like in a modest house in Andorra between the end of the 19th century and the first half of the 20th century. Through the visit of the three floors of the house, you will realise how austerity and complete dedication to work were the essence of the life of the humblest Andorrans.

The guided tours of the murals of La Mosquera will allow us to discover the history of Encamp through the paintings that cover the most emblematic and traditional streets of the town.
